AI-Powered Data Analyst | Business Intelligence & Machine Learning

SUMMARY

Analytical Computer Science graduate (B.Tech, 2026) with hands-on experience in data analysis, data visualization, and business intelligence across a 6-month Data Science internship, a Deloitte analytics simulation, and five independent analytics projects. Skilled in Python, SQL/MySQL, Pandas, Power BI, data cleaning, exploratory data analysis, dashboard development, and machine learning. Currently building an AI-powered Business Intelligence assistant using FastAPI, MySQL, Ollama, and Streamlit.

EDUCATION

Sardar Beant Singh State University (SBSSU), Gurdaspur, Punjab

Bachelor of Technology — Computer Science

2022 – 2026

Government Model High School Higher Secondary, Pathankot, Punjab

Education — Science

2020 – 2022

EXPERIENCE

Data Science Project Intern

Solitaire Infosys Inc.

Jan 2026 – Jun 2026

Sahibzada Ajit Singh Nagar, Punjab

- Designed and developed Influence Guard AI, a machine learning-based solution to profile and flag potentially fraudulent or inauthentic influencer activity.
- Executed data preprocessing, cleaning, feature engineering, and exploratory data analysis using Python, Pandas, and NumPy.
- Built interactive Power BI dashboards and Python-based visualizations to communicate business-oriented insights to stakeholders.

Data Analytics Virtual Intern

Deloitte Australia, via Forage Virtual Program

Apr 2026

Virtual Program

- Conducted data cleaning, analysis, and interpretation on business datasets to identify actionable insights.
- Created data visualizations and dashboards to communicate analytical findings to stakeholder audiences.

Python Data Science Intern

Croma Campus Pvt. Ltd.

Jun 2025 – Aug 2025

Noida, Uttar Pradesh

- Performed data cleaning, analysis, and visualization on real-world datasets using Python, Pandas, NumPy, and Matplotlib.
- Identified trends and patterns through hands-on data analysis projects.

Python Intern

HopingMinds

Jun 2023 – Jul 2023

Sahibzada Ajit Singh Nagar, Punjab

- Developed an AI-powered chatbot using an LLM API, implementing backend logic and API integration.

PROJECTS

Blinkit Grocery Data Analysis | Python (Pandas) • MySQL • Power BI

- Developed an end-to-end grocery sales analytics project using Python/Pandas for data cleaning and exploratory data analysis.
- Performed business-focused SQL analysis in MySQL and built an interactive Power BI dashboard covering product category, outlet type, and location.

Influence Guard AI | Python • Pandas • Scikit-learn • Streamlit • MySQL • Machine Learning

- Developed a machine learning solution to identify fraudulent or inauthentic influencer accounts, engineering features across six engagement signals.
- Applied Isolation Forest anomaly detection and built an interactive Streamlit application for influencer profiling and visualization.

E-commerce Sales Analysis | Python • SQL • Power BI

- Analyzed e-commerce sales data using Python and SQL to identify sales trends, product performance, and customer behavior patterns.
- Created Power BI visualizations and dashboards to communicate findings and support data-driven decision-making.

Fit Genie | Python • FastAPI • Gemini API • Generative AI • API Integration

- Developed an AI-powered fitness coach application using FastAPI and the Gemini API, delivering personalized workout plans and nutrition guidance.
- Implemented user authentication, profile management, and RESTful API endpoints for AI-driven recommendations.

Insight AI — In Progress | FastAPI • MySQL • SQLAlchemy • Pandas • Ollama • Streamlit

- Building an AI-powered Business Intelligence assistant enabling users to upload datasets and interact with data using natural language.
- Integrating six technologies — FastAPI, MySQL, SQLAlchemy, Pandas, Ollama, and Streamlit — into a single end-to-end analytics application.

TECHNICAL SKILLS

Programming & Query Languages: Python, SQL, MySQL

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Power BI, DAX

Machine Learning & AI: Scikit-learn, Machine Learning, Anomaly Detection, Generative AI, Ollama, Gemini API

Backend & Data Tools: FastAPI, SQLAlchemy, Streamlit, REST API

Development Tools: Git, GitHub, VS Code, Jupyter Notebook, Google Colab

Core Competencies: Data Cleaning, EDA, Statistical Analysis, Data Visualization, Data Storytelling, Business Insights, Dashboard Development

CERTIFICATIONS

Prompt Engineering Certification — Be10x, Jun 2024 • Prompt Engineering — AWS Community • Microsoft Power BI (Self-Directed)
